

# katchr<sup>®</sup>

## case study

"We've always been very transparent about our finances across the firm, and it is apparent to all that they have definitely improved on the back of this initiative"

### reason for change...

Inadequacy of standard reporting on performance metrics from existing PMS.

### results seen...

"...Having implemented the katchr dashboard delivery of KPIs, our FEs have now really bought into what we as a business are trying to achieve in the way of performance improvements, right across the firm..."

### we said...

"...Stephens Scown has been another great example of a law firm frustrated by their previous inability to quickly and easily access good management information..."

"We've been really impressed with katchr. The team are always really responsive and have an evident 'can do' attitude."

Full service law firm with regional focus but all the benefits of a big city firm.
